## **Statewide Coalition condemns deplorable conditions at Rochester apartments; calls on owner to help tenants**

*The following statement about the situation at Clinton Lofts in Rochester can be attributed to the UNDER ONE ROOF coalition:*

\*\*\*\*\*

“We stand with the tenants who have been abused by an unscrupulous landlord who has created unlivable conditions. Now, these tenants are being kicked to the curb and left homeless with little notice. Landlords and tenants must work together to hold bad landlords accountable and also advance legislation at the state level that creates a fair playing field for all. We’ll be taking the fight for affordable, safe and accessible housing to Albany later this month.”

\*\*\*\*\*

UNDER ONE ROOF supports New Yorkers living in rental apartments and those who own and operate them. The coalition works to protect New Yorkers' access to quality housing, increase the economic impact of rental properties and foster growth in the rental housing industry statewide. Together, we're invested in improving the apartment industry for all. More can be found at <https://www.underoneroofny.org/>
